Durham Business Office  
8 Newmarket Road  
Durham, NH 03824

Dear Gail and Todd:

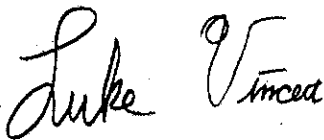

The 2020 IT and DCAT budgets include a few initiatives to enhance coverage as we prepare for forced technology changes. Our budgets vary little year over year but tend to favor adjustments that keep our operations lean. We ask that you consider the impact of each line item to overall operations.

Highlights this year include:

- Continued expansion of the Office 365 platform to new departments and staff
- Cost savings from elimination of redundant DSL connections and off-site file storage
- Extended coverage for our HCI VXRail cluster for an additional year
- Expanded capability of broadcast equipment in the Police Community Room

This year's budget will be appropriate to keep the department running at current service levels. It does not address other larger initiatives such as document management, information security, training, etc. We hope more consideration can be given to these goals in coming years, as funding and time allow. IT/DCAT is considered fundamental to the success of the Town staff and departments, as we strive to meet those demands we continue to seek new efficiencies with our limited time and resources.

Sincerely,
