	This line covers the supplies needed to maintain and repair the water distribution system encompassing approximately 18 miles of pipe, 1325 service connections, 147 Town owned fire hydrants and 250 gate valves. This includes meters, pipe, corporation stops and boxes, spud connectors, gas valves and boxes, repair saddles, HYMAX fittings, etc. This line also includes \$1,050 to cover the cost of natural gas to power the generator at the Technology Drive Booster Station. Based on an estimated usage of 75 therms. This generator is new and has a limited usage history. Will reconcile and update for 2026. This is based on the current price of \$0.89 per therm which the Energy Information Administration believes will remain steady in 2025. The balance covers other structural charges including the Delivery Base, Distribution, and Local Delivery Adjustment. It is important to note that while the price per therm has decreased in the near-term, this commodity market has been highly volatile in recent years.
