

Attachment

The changes that I would like to do include replacing the twelve windows in the single story structure as follows:

I am able to get vinyl windows with SDL (Simulated Divided Lites) which are a raised grid pattern both on the inside and exterior.

This includes:

Energy efficient window with a .30 Energy Star Rating

Installation

All exterior woodwork

All warranties

Disposal of debris

Windows with a raised, simulated divided lite grid pattern as required by HC of Durham, NH
