Re: RiverWoods Durham

---

I have the following comments regarding the construction of RiverWoods on Stone Quarry Drive:

- Lighting in the adjacent parking lot should be designed to prevent vandalism and thefts from vehicles.
- Unit numbering should be developed so that police personnel can easily and quickly locate units, i.e., 320 for unit 20 on the 3<sup>rd</sup> floor.
- It appears that a traffic study will be accomplished for traffic egress onto Route 108.
- The applicant is already aware of the presence of the police firing range immediately adjacent to the facility. While the intent and hope is that a County-wide facility be constructed soon and that the Durham Police cease the use of this location, until that occurs, the firing range will be used on very limited but periodic times. The Durham Police will provide ample notice as to when training will occur.

I have observed no other issues that would hinder the Durham Police from providing services to this facility.

If you have any questions pertaining to my suggestions, please do not hesitate to contact me.
