Re: Durham Point Road - #27

After reviewing the current documents associated with the development of a new driveway at this location, I have the following comments:

- The proposed drive has significantly enhanced sight distance than the existing drive.
- Since there are a number of residences sharing this drive, the new drive will eliminate the sharp roadway corners making for easier access by public safety vehicles and personnel
- There currently exist adequate police resources to serve the needs of residential property. However, each additional home added to the tax roll will ultimately have a cumulative effect upon police capacity to respond.
