Dear Durham Planning Board,

I personally think that there needs to be a compromise between the developers and the Durham residents, because if the Durham resident's aren't satisfied, then that may be bad for the long term.

Perhaps one compromise is to have some of the extra parking be built under the new student housing (under the building as like a mini parking garage for the students) so that there aren't too many trees cut back.

Also a compromise of having an unbiased section in the Durham newsletter discussing what is happening regarding the possible new developments.

Thank you very much.

Respectfully,
Brennan Dwyer
