Hi Michael,

Planning Board items for you...

- **Packers Falls Road Tree Removals.** I spent an hour on Packers Falls Road this morning reviewing the marked trees Eversource has marked for possible removal. I recall the Public Utilities Commission advising Eversource to look at tree trimming/removals along this Packers Falls Road circuit due to several power outages and customer complaints over the past year. The marked trees are mostly in the wires, in poor dead/dying condition or growing in clumps. I believe this tree removal request is good for the health of all the remaining trees, accomplishes the PUC request, and will benefit Packers Falls Road residents now and in the future regarding their power needs...

Mike
