Subject: Durham point Eversource

Michael and Todd,

I have been unable to attend hearings about proposed tree trimming on Durham Point Road. If you are still open to ideas, I suggest you drive on Rte 155 from Madbury Road to the intersection with 155A in Lee. The segment between Madbury Road and Lee Five Cornerd was cut back by Eversource as I believe is proposed for Durham Point. The segment from Five Corners to 155A is, I believe, designated a scenic highway. A much more agreeable trimming had been accomplished in that segment by alternating poles from one side of the road to the other. I am sure Eversource would not jump at this added expense, but the final result conforms with standards and allows for a more scenic road.

Best regards,

Joe
