Subject: In favor

Dear Michael,

I support the cutting of the compromise number of forty trees as well as tree trimming along Durham Point Road to promote power reliability in an area famously known for its frequent and extended outages.

I say this having lived through many including the extended outage and partial road closing caused by a single fallen tree at the corner of Sunnyside and although I remain an ardent Joyce Kilmer fan, I choose power lines over generator exhaust.

Thank you,
Luci Gardner
61 Durham Point Road
