Karen

I apologize for my late response. I just received your certified letter regarding this property. I had been hospitalized for a pretty serious condition.

I oppose the addition of more housing units in that area due to the congestion and large number of properties housing multiple student units.

They are not supervised, are blighted, and create litter that affects my property at 39 Madbury Rd.

There are too many large housing units in the downtown area already and they are not held to the same requirements as the single rental units.

Please acknowledge that you received this email and forwarded to the Planning Board.

Thank you!

Pam Sakowski
