Subject: Tidewater

My husband and I live at 7 Old Landing Road. We are most un happy about the problem of them impending Food Truck parking lot. We don't want the noise, traffic (both people and vehicles) to infringe on our generally, quiet, neighborhood. Its probably too late to bring this up, but has anyone brought up Air pollution (from Food trucks)? They stink to high heaven. Has anyone brought up the Rodents that will accumulate around the trucks and area (rodents LOVE these food truck parks)? The Food truck people urinate in their trucks where they prepare food, which is beyond gross. Our neighborhood already has a huge rat/mouse problem. The old town hall building had a rodent problem too). We are already disturbed by bad music from Three Chimneys when they have it outdoors. We plan to call the police whenever we hear a peep from just over our hill.

No thanks to Food Truck park. Not there! Maybe Emery Farm or Mill town plaza want its stunk and meds. We do not want it close to us!

UNH is Durham's "destination" its the only one that will ever count. Visit our downtown restaurants, they are already in survival mode.

Sincerely,
Elizabeth Novak

Ps I dare you to read this out loud at the meeting 7/13/23
We can not attend as neither if is awake past 8 or 9 pm
