Dear Planning Board Members:

I am a Durham resident writing to voice my support for the Tideline Public House project. This development will offer a much-needed venue for adults and families to spend their dollars in Durham and will surely benefit other businesses in the area. As a resident of the Wedgewood neighborhood, I am particularly looking forward to having a place where I can walk with family for dinner or drinks. I understand that concerns about parking have been raised and I hope that those will not derail what sounds like a wonderful addition to Durham.
