Subject: Draft Solar Ordinance
Date: Sunday, September 4, 2022 1:04:10 PM

To the members of the Durham Planning Board,

I am writing to offer my thanks to Jim Lawson for creating the Draft Solar Ordinance, and to Beth Olshansky, whose comments of August 5, 2022 explain the reasoning behind the various provisions of the Draft Solar Ordinance.

Please accept my concurrence with the Draft Solar Ordinance. With the current passage of the federal IRA bill, it is especially imperative that we have guidelines in place for the solar systems that will be proposed. Thank you for balancing our need for clean, renewable energy with the protection of farms, forests and character of our region.
