Town Planner's Recommendation
Wednesday, February 8, 2023

- IX. **Eversource Energy – Utility Pole in WCOD.** Bennett Road. Permitted Use B application for installation of one utility pole and an anchor at the Packers Falls Substation within the Wetland Conservation Overlay District. Eversource Energy, property owner. William McCloy, wetland scientist and agent, Normandeau Associates.

I recommend approval as stated below. This is a pretty simple and straightforward application. No notices, nor fee, nor public hearing are required for a Permitted Use B application. The application was presented to the Conservation Commission on January 30. The commission recommended approval of the project in accordance with the three criteria. The criteria are addressed in the applicant's narrative.

Draft

NOTICE OF DECISION
