

NO - SORT CURBSIDE RECYCLING PROGRAM

In 2015 Durham's residential curbside collection program became no-sort, meaning you no longer have to separate paper and cardboard from bottles, cans and glass! All recyclables can be mixed together in the same bin.

REMINDER: Remember, all recyclables and household refuse should be **curbside by 7am** on the day of your collection per ordinance! All recyclables must be put out in a proper recycling container. Blue containers may be purchased from Public Works for \$10, otherwise alternative containers are acceptable as long they have holes drilled in the bottom and are clearly marked "RECYCLABLES." **RECYCLABLES PLACED IN PLASTIC BAGS WILL NOT BE ACCEPTED.**

LOCK ON BARRELS: Both the refuse and the recycling truck are capable of picking up lock on barrels. If you choose to purchase this type of receptacle, the compatible type of can must be no larger than 95 gallons and have the metal or plastic bar type attachment as seen in this photo.

Below are details on what you can and can't recycle curbside on a weekly basis. If you have any questions, please feel free to call the Public Works Department at 868-5578, or write to us at publicworks@ci.durham.nh.us.

DO Recycle

**Paper, Plastic, Metal & Glass
can all be mixed together.**

PAPER
