To whom it may concern,

Hello my name is Allison. I work at Town and Campus and I wanted to let you know I have had to park on the street every day I work. Though I only work two days out of the week, I live off campus in Madbury, NH, so I have to take my car in each day. Then I have to move my car and pay the meter every two hours in order to not get a ticket. I have no place to park my car and I feel awful every time I park since I know these spots are meant for the residents of Durham, NH and visitors for UNH, not to mention these spots are also for my customers. I do not wish to park on the street any more and waste my money, but I have no other place to park.

Sincerely,

Allison Nartiff
