Subject: 18 Main St. Parking

Hello Michael,

I would like to support the parking lot being proposed behind 18 Main Street. The Town has been collecting fees from developers for many years now, with the promise of building a parking structure. This has been good for the long-range planning of the downtown vis a vis increasing density and reducing on-site parking requirements. This is critical in establishing a continuous "street edge" downtown. However, until a parking structure is built, there has been a steadily increasing need for parking close to the commercial core. I would strongly urge the HDC and Planning Board to favorably consider this proposal. It is hidden from view, yet strategically located near the center of town.

Sincerely,

1
