Dear Audrey,

With the approval for a 2 bed-room accessory dwelling we are asking for a permit to park another car in our driveway one behind the other in two rows to accommodate for the tenant. Attached is a photo giving you measurements, I also highlighted as an alternate option to park 3 cars in an angle partly on the grass and one car straight in on the left. The second picture shows 4 cars can easily fit in the driveway with still plenty of room to view the road.

Thank you for your time and consideration
