To whom it may concern,

Since it is unlikely that I will be able to attend the hearing, I am writing in response to a notice for a variance request by Kevin and Beth Campbell at 12 Faculty Road. As the immediate abutter to the property; my property being at 1 Garden Lane, I would like to support the request for a variance. There is an existing shed in the same location which has been there for the entire time that I have owned the property. This has never been an issue for me. To replace it with a new one does not seem an unreasonable request, and any improvements that keep a property in good condition only add to the value of the neighborhood.

Thank you for considering my input.

Regards,

William Brown
